

Home Emergency & Fire-Evacuation Floor Plan

Emergency Phone numbers:

Fire:		Ambulance:	
Other:		Other:	

Fire evacuation plan layout of home.

- Draw a floor plan of your house, showing all doors and windows.
- Mark at least two ways out of each room wherever possible.
- Mark locations of fire extinguishers and smoke alarms (at least one in each sleeping room)
- Check that all smoke alarms are active and serviced regularly.
- Pick a meeting place outside where everyone can meet in case of evacuation.
- Ensure that all members of the family are familiar with this plan.
- Practice your evacuation plan with your family at least twice a year.
