March 19, 2021

**Dear T'it'q'et Residents**

**Re: State of Emergency Update**

T'it'q'et remains in a local state of emergency. In January 2021, T'it'q'et reverted back to Phase One of the Restart Plan. At the March 15, 2021 T'it'q'et Council meeting, Council made the decision to proceed with care to Phase Two of the Restart Plan. Phase Two of the Restart Plan is outlined below.

**Phase Two:**

- ☐ Draft and approve COVID-19 *Pandemic COVID-19 virus Exposure Control Plan* and *Pandemic COVID-19 virus Exposure Controls – Protocols & Procedures* for all T'it'q'et Administrative buildings i.e. "Infection-prevention control strategy",
  - Signage for door entrance "Stop!...do you feel....do you have...etc."
  - Complete a staff/employee COVID-19 Daily Fit for Work Screening test
  - Marked spots on floor
  - plexiglass requirements
  - cleaning and disinfection building requirements and frequency etc.
  - Ensure enough hand sanitizers, (PPE), cough etiquette, washing hands, physical distancing etc. signages for all T'it'q'et buildings.
- ☐ Council/Administrator – formal request for all staff to return back to work and ensure that they know the staff's safety plans and supports they may need (I.e. childcare) etc. and that they understand the Health & Safety Plan and/or complete the assessment test - WorkSafeBC
- ☐ Closing down T'it'q'et EOC OR Some working from their offices when needed
- ☐ **Open T'it'q'et Administration buildings by appointment only to community members.**
- ☐ **Hold staff, council, trainings or committee meetings with physical distancing practices in place. Maximum 10 people.**
- ☐ **No contact pick up or drop off is permitted**
- ☐ **Allow a household outdoor gathering with no more than ten (10) visitors who are a part of the same small core bubble. These visitors must be the same 10 visitors from the community or northern St'at'imc communities. Residents and guests must maintain physical distancing (6 feet or 2 Metres apart), wear masks, wash hands regularly, hand sanitize when unable to hand wash, sneeze into your sleeve.**
- ☐ **People from out of the region are not encouraged to travel into our community and region.**

- ☐ **No social gatherings of any size inside your residence with anyone other than your household or, if you live alone, your core bubble.**

There are new COVID 19 variants that spread much faster so it is essential that preventive measures are maintained.

The front entrance security check point will no longer be in operation. However, speed check monitors will continue to be set up. Security will also continue to patrol the community.

Please remember to slow down as the weather improves children and pedestrians are on the roads more often.

**We must all work together. This is not going to last forever, but for right now, we must all be vigilant.**

**Amhálhts'a7, T'úl'lec, Ats'xstútwi7  
Be kind, Be calm, Take good care of yourselves.**

T'ít'q'et Chief and Council and T'ít'q'et Administration
