

## About our project

Our project will be dedicated to the continued development of the Child and Family Services programs, policies, laws, partnership agreements and shaping the governance and management model that meets the communities needs. Opportunities for training and education will help strengthen T'it'q'et authority towards roles and responsibilities to oversee our own Child and Family Services program.

Looking After our Children

## P'EGP'IG'LHA VISION

The focus is on compiling data from; survey results, feed back from community engagement process and the research collected. Through research this will provide us knowledge of the stories of the ancestors about traditions and values of caring for children and families and explore historical and contemporary information about jurisdiction of children and families.

## OUR DREAM

### Our Dream

This is the dream of the P'egp'ig'lha clan. Our words come from our hearts. We will look after ourselves and each other. We will make our own laws. We will follow our own way of life as did our ancestors and as will our future generations

## FULFILLING THE DREAM OF THE P'EGP'IG'LHA LOOKING AFTER OUR CHILDREN

The purpose of the project: Fulfilling the Dream of the P'egp'ig'lha – Looking After Our Children is to undertake the work in our community to prepare for jurisdiction over our child and family services over the next five years, in accordance with Section 35 of the Constitution Act 1982 and an Act respecting First Nations, Inuit and Metis Children, Youth and Families.
